### BIBLIOGRAPHY OF AGRICULTURE

A new section of the BIBLIOGRAPHY OF AGRICULTURE on "Food Processing and Distribution" is now being issued each month by the Department Library. This is an annotated list of books, periodical articles, and other literature on the subject of food. If you are interested in current information on such subjects as canning and canned foods, dehydration, prices and price control, rationing, food production, you will be interested in checking this list regularly. Many of the titles noted are available from this Branch and we will be glad to borrow others from Washington.

There are five other sections of this Bibliography, one or more of which probably cover the field of your special interest. If you are not familiar with this series, ask us to send you copies for examination. The other titles are: "Agricultural Economics and Rural Sociology"; "Agricultural Engineering"; "Entomology"; "Plant Science"; and "Forestry".

### PERIODICAL CIRCULATION

Have you notified us of the periodicals you wish to see regularly? The complete list was published in the February first issue of the Newsletter. Many of you have sent in your lists, but many offices, particularly the FSA field offices, have not been heard from.

Vol. 2, No. 5

May, 1943

ATTENTION MEMBERS OF THE LINCOLN USDA CLUB. The next meeting of the USDA Club will be held Thursday, May 20, 1943. The Program Committee promises an unusually interesting meeting this month, as they have been fortunate in securing Dean N. A. Bengston of the University of Nebraska as speaker. Dean Bengston will speak on HEMISPHERIC SOLIDARITY.

In connection with this meeting the Library has secured from Washington a packet of interesting pamphlets on Latin America. Any office interested in having this collection for a week should phone the Librarian. Separate items will also be loaned to individuals. The following titles are included:

LOOK AT LATIN AMERICA, by Joan Raushenbush

ASK ME ANOTHER: QUESTIONS AND ANSWERS ON THE AMERICAN REPUBLIC

THE AMERICAS--SOUTH AND NORTH (Survey Graphic, March 1941)

Bolles, Joshua K. THE PEOPLE'S BUSINESS; THE PROGRESS OF CONSUMER COOPERATIVES IN AMERICA. 170pp. New York. Harper & brothers publishers. 1942. 334.5 B63p.

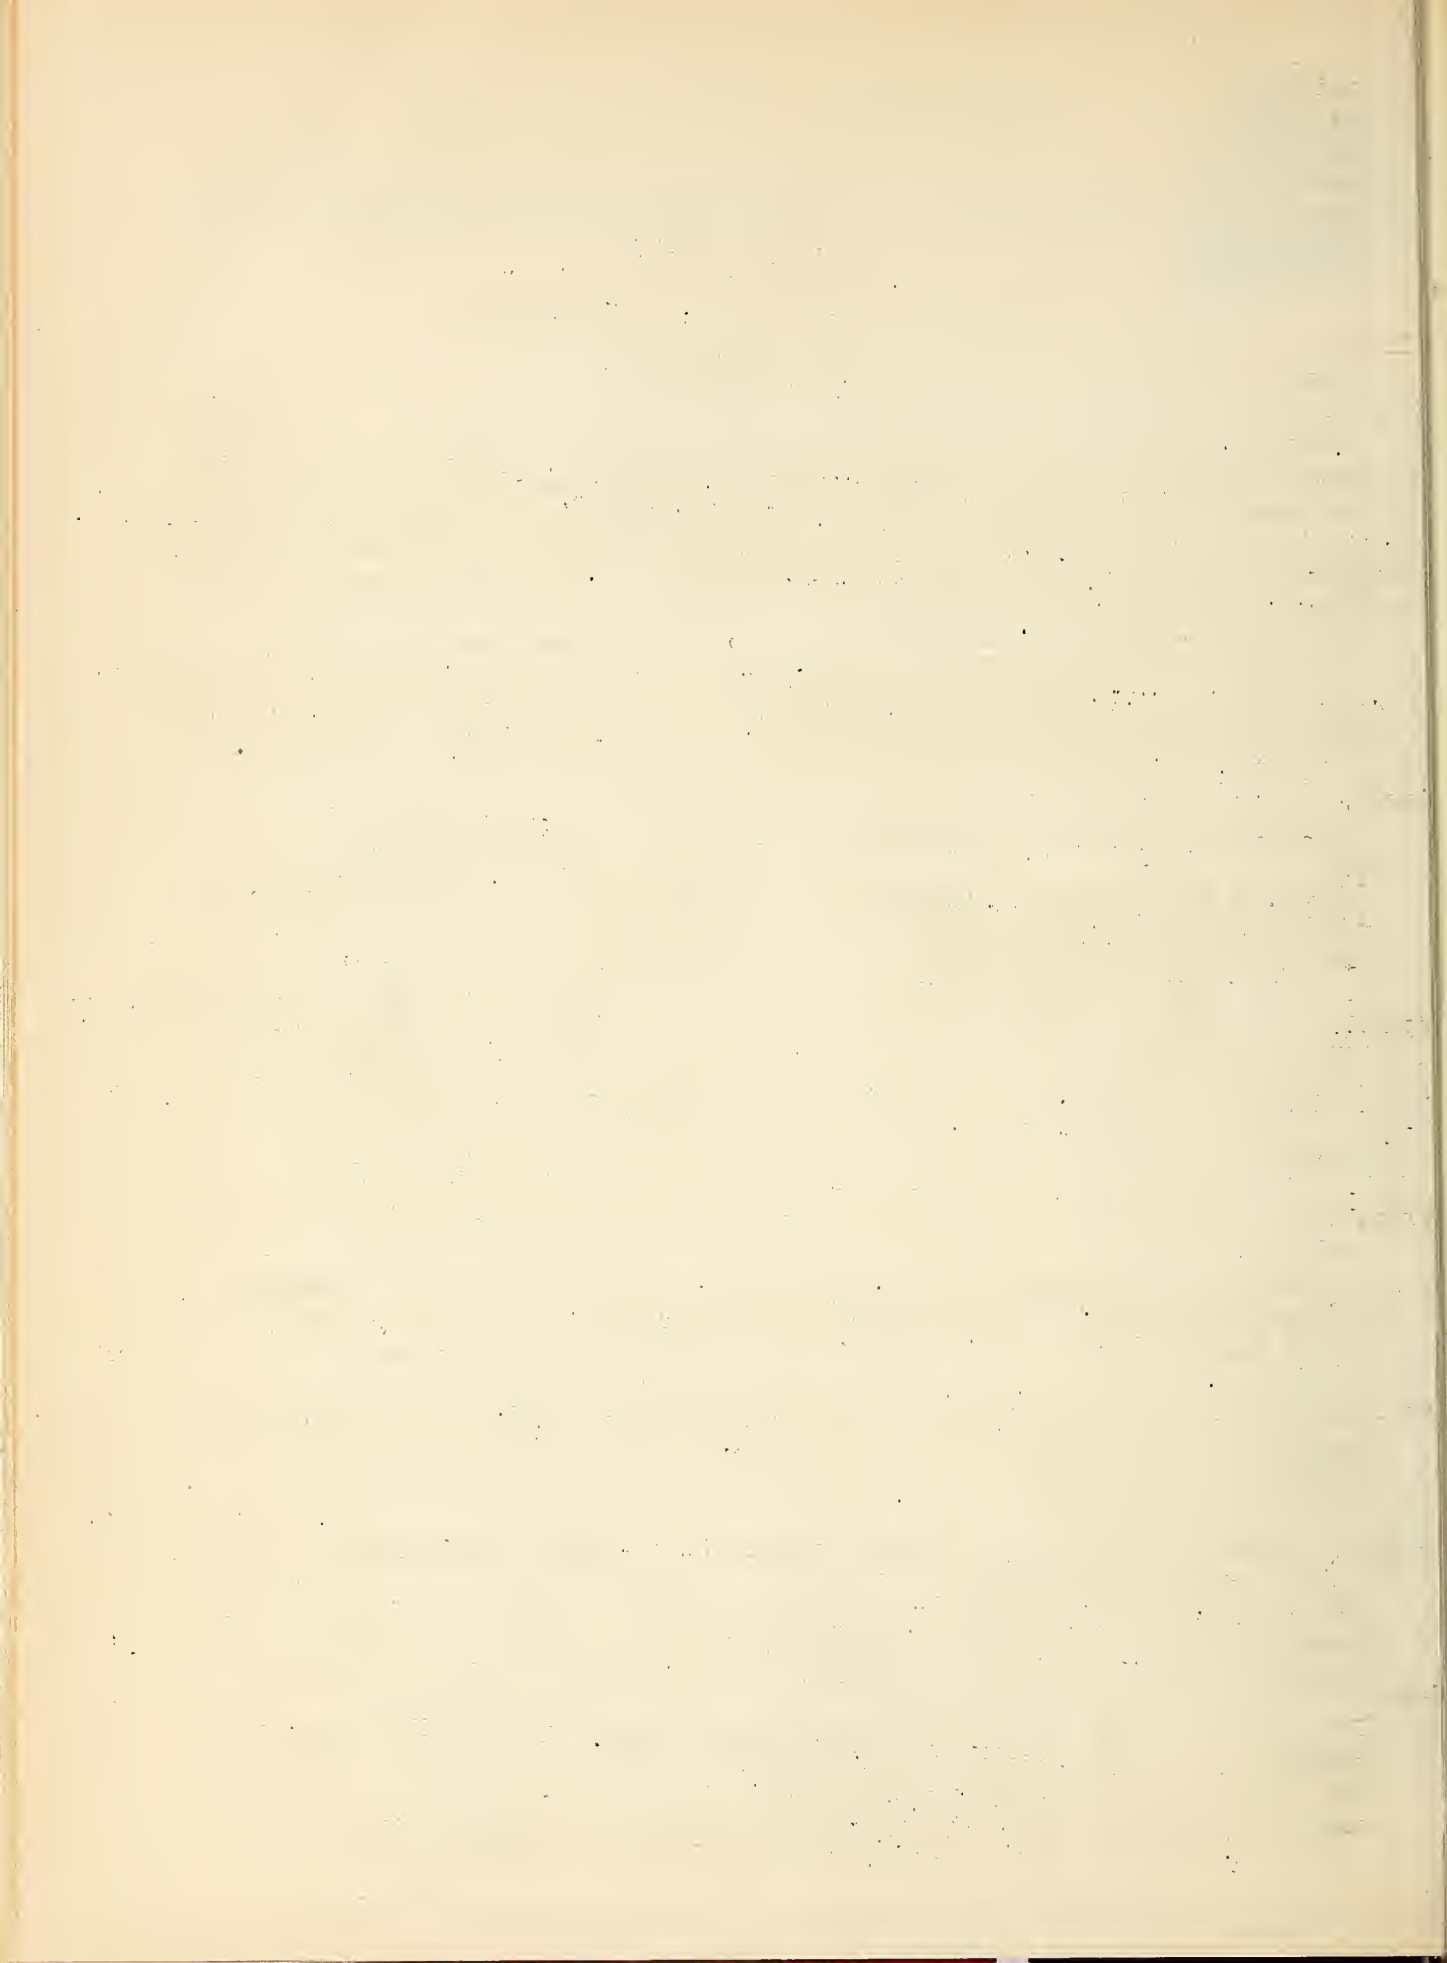

A highly readable account of consumer cooperatives which traces the growth of this important movement in the United States. Numerous specific instances are given showing the many fields in which cooperatives are now operating successfully.

Cooper, Alfred M. EMPLOYEE TRAINING. 311pp. New York. McGraw-Hill book co., inc. 1942. 658.3 C78e.

Emphasizes the conference method of employee training, but includes subject matter which will prove helpful in developing any type of employee training program. There is a chapter on "An Effective Safety Training Program."

Cooper, Alfred M. HOW TO CONDUCT CONFERENCES. 191pp. New York, McGraw-Hill book company, inc. 1942. 374.2 C78h.

Although of comparatively recent development the conference, or the informal discussion meeting, has become the most important device for getting

things done in business and in government. No conference can be successful without competent leadership. This book will be of real help to anyone who is called upon to conduct conferences, as it tells clearly and briefly how to develop an effective technique in conference leadership. Two other books you will want to read on leadership, if you haven't done so already, are: THE ART OF LEADERSHIP by Ordway Tead (249.3 T222A) and LEADERSHIP FOR RURAL LIFE, by Dwight Sanderson (281.2 Sa52L).

Galloway, George Barnes and Associates. PLANNING FOR AMERICA. 713pp. N. Y. Henry Holt and company. [c1941] 330.973 G13p.

"The United States must plan or perish." In this book more than thirty authorities in their respective fields discuss various aspects of economics, social work, national resources, defense, and area planning, and suggest how, through planning, we can preserve our vital institution and the American way of life.

Galloway, George B. POSTWAR PLANNING IN THE UNITED STATES. 158pp. New York. The Twentieth century fund. 1942. 330.973. G13po.

A report prepared to aid all those working on postwar planning by describing briefly the research programs of all organizations, both government and private, working in this field. Over one hundred agencies are included. There is a selected bibliography.

Mitchell, Lucy Sprague; Bowman, Eleanor; Phelps, Mary. MY COUNTRY 'TIS OF THEE; THE USE AND ABUSE OF NATURAL RESOURCES. 335pp. illus. N. Y. The Macmillan Co. 1940. L.R. 279.12 M69.

"This book about three natural resources--soil, coal, and oil--and the role they play in present-day United States, is written for anyone not too young to think and not too old to feel." Foreword.

Ostrolenk, Bernhard. ECONOMIC GEOGRAPHY. 804pp. Chicago. Richard D. Irwin, Inc. 1941. 330.9 Os7e.

The effect of changes in technology upon the importance of the contribution of natural resources to human welfare is discussed in this economic geography which deals primarily with the United States.

Perry, Thomas D. MODERN PLYWOOD. 366pp. illus. N. Y. Pitman publishing Corporation, c.1942. L.R. 99.77 P422.

A delineation of the earlier technique in the plywood industry combined with a description of the later technique, particularly the development and growth of resin adhesives, which is opening up a new field for plywood.

Van Dersel. William Richard. ORNAMENTAL AMERICAN SHRUBS. N.Y., London. Oxford university press. 1942. 582.17 V280.

Sketches the story of early plant exploration in the United States and explains why the best native plants are superior to those introduced from foreign countries. There are chapters on how to grow shrubs with the least effort and expense, and how to determine the parts of the U. S. where any given species is most likely to succeed or fail. Gives lists of the ten best shrubs for each section of the country.

Wartime farm and food policy series. 7 nos. Ames, Iowa. The Iowa State College Press. 1943. This series, prepared by members of the Department of Economics at Iowa State College, will consist of fifteen or more pamphlets. The purpose is to present factual information regarding our wartime farm and food policy. The following pamphlets have been received to date.

- No. 1. Food strategy by Margaret G. Reid. 40pp. January 11, 1943.
- No. 2. Farm prices and food production, by Theodore W. Schultz. 43pp. February 1, 1943.
- No. 3. Manpower in agriculture. 50pp. February 20, 1943.
- No. 4. Food rationing and morale, by C. Arnold Anderson. 40pp. March 4, 1943.
- No. 5. Putting dairying on a war footing, by O. H. Brownlee. 35pp. March 19, 1943.
- No. 6. Commodity loans and price floors for farm products, by Geoffrey Shepherd. 27pp. April 12, 1943.
- No. 7. Using our soils for war production, by Arthur C. Bunce. 29pp. April 14, 1943.

Whitbeck, R. H. and Finch, V. C. ECONOMIC GEOGRAPHY; A REGIONAL SURVEY. 647pp. New York. McGraw-Hill book company, inc. 1941. 330.9 W58e ed. 4. In rewriting and revising this text on economic geography, greater emphasis has been placed on the regional viewpoint. New maps and diagrams showing the regional subdivisions of various countries and areas give visual emphasis to this treatment.

NEW PERIODICALS -- Let us know which of our new periodicals you wish to see regularly and we will place your name on the circulation list. Current periodicals may be kept for three days, and are then to be sent on to the next address on the routing slip.

CONSUMER REPORTS. This periodical published each month by the Consumers Union of United States, Inc. will be of great help to you in your consumer education programs. Each issue carries reports on selected items giving the information the consumer needs to buy wisely. There are frequent articles on health and medicine.

BREAD AND BUTTER "Facts you need before you buy" is the weekly newsletter of the Consumers Union giving information on subjects of interest to consumers. The May first issue carries an article about FSA.

Another consumer education publication you will want to see regularly is THE FAMILY DOLLAR, Wartime Edition. This is published by Consumer Credit Institute of America, Inc. and is issued irregularly.

For enjoyment as well as information you will want to see the COUNTRY BOOK regularly. This little book digests interesting and important articles on agriculture, and rural life in general. This is published four times a year.

We are glad to announce that we now have subscriptions to SURVEY GRAPHIC and SURVEY MIDMONTHLY. Both are outstanding magazines in the sociological and economic fields and many of you will want to see them regularly. The May 1943 issue of SURVEY GRAPHIC is a special number devoted to the subject "From War to Work; How to Get Full Employment and Keep it Going."

We have also added the following periodicals to our list:

COLORADO FARM BULLETIN

CROP PRODUCTION (Issued by the BAE. Formerly General Crop Report)

HOARD'S DAIRYMAN

MONTHLY REVIEW OF AGRICULTURE AND BUSINESS CONDITIONS IN THE 9th FEDERAL RESERVE DISTRICT (This includes the states of Michigan, Minnesota, Montana, North Dakota, South Dakota and Wisconsin)

VICTORY SPEAKER; AN ARSENAL OF INFORMATION FOR SPEAKERS. This is issued by the Office of War Information.

## AVIATION

Kaempffert, Waldemar. THE AIRPLANE AND TOMORROW'S WORLD. 31pp. (Public affairs pamphlet no. 78) New York, N.Y. Public affairs committee, inc. 1943.  
An interesting prognostication of aviation in the post-war world and its effect on world economics and politics.

SELECTED LIST OF RECENT ACCESSIONS

AGRICULTURAL ENGINEERING

Pinches, Harold E. INTRODUCTION TO AGRICULTURAL ENGINEERING. 89pp. 2nd edi.  
Storrs, Conn. H. E. Pinches. 1942.

An analytical rather than practical treatment of agricultural engineering.  
"The purpose is to present and to interpret some principles which underlie the practical and the specialized." The chapters on Power and Machinery in Agriculture, Electricity in Agriculture, Hydraulics including Energy Relations of Water Control and Water Systems and Levels and Leveling will be of particular interest.

BEEES

Dadant, Camille P. THE BEE PRIMER. 30pp. Hamilton, Ill. American Bee Journal. 1937.

The "back-lot" beekeeper will find a world of helpful information in this popular pamphlet on beekeeping.

Dadant, C. P. FIRST LESSONS IN BEEKEEPING. 127pp. Hamilton, Ill. American Bee Journal. 1938.

A brief, practical guide to beekeeping.

Root, A. I. and E. R. THE ABC AND XYZ OF BEE CULTURE; AN ENCYCLOPEDIA PERTAINING TO SCIENTIFIC AND PRACTICAL CULTURE OF BEES. 813pp. Medina, Ohio. The A. I. Root Co. 1940.

The standard work on the scientific and practical culture of bees.

CONSUMER AND THE WAR

Brindze, Ruth. STRETCHING YOUR DOLLAR IN WARTIME. 197pp. N. Y. The Vanguard Press. 1942.

An authority on consumer problems tells how to get the best and most economical use out of food, your car, clothing, household goods, etc.

Warc, Caroline F. THE CONSUMER GOES TO WAR; A GUIDE TO VICTORY ON THE HOME FRONT. 300 pp. New York and London, Funk & Wagnells Co. 1942.

Here is a timely book giving a simple, clear analysis of what our home front is. Gives the reasons behind rationing, price control, production control and the other exigencies of this critical period.

CROP PRODUCTION

Cox, Joseph F. & Jackson, Lyman E. FIELD CROPS AND LAND USE. 473pp. N.Y. John Wiley & Sons, Inc. 1942.

"It is the purpose of this book dealing with crop production practices and land use methods to present the progress made to date in the great national program of efficient farming, agricultural adjustment, and conservation..."

Hughes, Harold D. and Henson, Edwin R. CROP PRODUCTION PRINCIPLES AND PRACTICES; A HANDBOOK OF INFORMATION FOR THE STUDENT OF AGRICULTURE. 816pp. illus.

N. Y., The Macmillan Company, c1930. 633 H87c.

Rather, Howard C. FIELD CROPS. 454pp. 1st ed. N.Y. McGraw-Hill Book Co., Inc. 1942.

This book gives in concise form much helpful information on the leading crops of this country. Not only are basic growing methods emphasized, but, in order to make the book a practical guide to profitable farm practice, consideration is given to the value of these crops for various purposes.

ENTOMOLOGY

Fernald, H. T. and Shepard, Harold H. APPLIED ENTOMOLOGY. 4th ed. 400pp. N.Y. McGraw-Hill book co., inc. 1942.

Here is thorough introduction to the facts that are important to readers con-

cerned with the destructiveness of insects. This book gives a good working knowledge of the nature and habits of insects and the chief means of controlling them is given, followed by details of each order, its harmfulness, and specific control measures.

#### FARM SHOP PRACTICES

Jones, Mack M. FARM SHOP PRACTICE. 315pp. N.Y. McGraw-Hill book co., inc. 1939.

Described as "an encyclopedia of correct shop practices" this book includes sections on farm woodwork, tool sharpening, cold metal work, pipe work, soldering farm blacksmithing, concrete work, and harness, belt and rope work.

Roehl, Louis M. FARMERS SHOP BOOK. 441pp. Milwaukee. Bruce publishing co. c1942

The many illustrations, diagrams and plans make this a particularly helpful guide to farm shopwork.

#### FARMING

Duryee, William B. FARMING FOR SECURITY. 250pp. N.Y. McGraw-Hill Book Co., Inc. 1943.

Written in a popular style for the person who owns or intends to purchase a farm this book is a practical discussion of inflation, income tax, rationing, land values and other subjects in relation to farm ownership as well as of the newest developments in crop varieties and livestock breeds, farm management methods and the marketing of farm products.

#### FOOD PRESERVATION

Maxwell, Rosina K. FOOD PRESERVATION GUIDE. 264pp. North Chicago, Ill. Bunting Publications, Inc. 1942.

This reference book on conserving and preserving food includes over four hundred recipes for the canning, drying and storing of meats, fruits and vegetables.

Pierce, Anne. HOME CANNING FOR VICTORY; ALSO PRESERVING, PICKLING AND DEHYDRATING. 106pp. N.Y. M. Barrows & Co., Inc. 1942.

A last-minute digest and compilation of approved methods for canning, preserving, pickling and dehydration for the homemaker.

#### FOREST SEEDS

Toumey, James W. and Korstian, Clarence F. SEEDING AND PLANTING IN THE PRACTICE OF FORESTRY. 520pp. 3d ed. N.Y. John Wiley & Sons, Inc. 1942.

A new edition of this well-known handbook on seeding and planting in forestry practice in the United States. Because of the emphasis being given to the production of nursery stock for planting on particular sites and the inauguration of federal, state, and private planting programs, new material has been included on this subject.

#### GEOGRAPHY

Klages, Karl H. W. ECOLOGICAL CROP GEOGRAPHY. 615pp. N.Y. Macmillan co. 1942.

As pointed out in a review in "Soil Science" this book should be "of value to every worker in the field of crops and soils." It will be of especial interest to Department employees engaged in planning a long-range agricultural policy as it presents a picture of world crops - where they are produced, the factors affecting their production, and the areas in which more intense cultivation is possible.

Davis, Darrell Haug. THE EARTH AND MAN. 675pp. N.Y. Macmillan co. 1943.

A college textbook designed "to supply a background of factual material and principles of value to" students of geography and "to establish certain facts and principles concerning regional possibilities as affected by various environmental conditions."

#### LIVESTOCK

Peters, Walter H. LIVESTOCK PRODUCTION. 450pp. 1st ed. N.Y. McGraw-Hill Book Co., Inc. 1942.

An authoritative manual on the most effective methods used in producing beef and dairy cattle, swine, sheep, goats, horses and mules.

## NORTH DAKOTA

Gillette, J. M. SOCIAL ECONOMICS OF NORTH DAKOTA. 245pp. Minneapolis. Burgess Pub. Co. 1942.

According to the Preface, "The big purpose of the volume is to give the public as much authentic information as is obtainable about most of the chief lines of activity and interest in [North Dakota]." The author, a statistical sociologist, has included much authentic statistical material.

## NUTRITION

Fishbein, Morris. THE NATIONAL NUTRITION. 192pp. N.Y. The Bobbs-Merrill Co. 1942

"In this book for the lay reader [Dr. Fishbein] defines nutrition, describes the results of hidden hunger, discusses essential food materials, presents a commonsense approach to the family food problems and reviews vitamin facts and follies."

Pattee, Alida Frances. VITAMINS AND MINERALS FOR EVERYONE. 242pp. N.Y. G. P. Putnam's Sons. 1942.

"Most of us, in fact, are starving - not necessarily for lack of food but for lack of vitamins and minerals." Here is a book which tells you what vitamins are and what they mean to you and your health."

Maddox, Gaynor. EAT WELL FOR LESS MONEY. 219pp. N.Y., E. P. Dutton & Co., Inc. 1942.

A practical handbook which tells how to get the most, and the best, out of your food dollars; how to know what nutritive elements each member of the household needs; how to get these elements in the family menus; how to market, and build your menus for 100% utilization.

Boert, L. Jean. GOOD NUTRITION FOR EVERYBODY. 165pp. Chicago. Univ. of Chicago Press. 1942.

"...a brief survey of the principles of nutrition designed for the wartime household... A working knowledge of nutrition for every woman, stressing the foods that you can get and pay for with 123 appetizing recipes for wartime economy."

Silver, Fern. NUTRITION. 168pp. N.Y. D. Appleton-Century Co., Inc. 1942.

A good practical statement of the basic principles of nutrition. The discussion of vitamins and minerals is somewhat more comprehensive than is ordinarily found in an introductory text and is direct and simple.

## POULTRY HUSBANDRY

Knendel, H. Clyde. PROFITABLE POULTRY KEEPING. 462pp. N.Y. Orange Judd Pub. Co., Inc., 1943.

This book by the Head of Poultry Department of The Pennsylvania State College was written to meet a growing demand for information of a practical nature and should be of value to beginners in the field of poultry production as well as to farmers and poultrymen faced with practical poultry-keeping problems.

Card, Leslie E. and Henderson, Melvin. FARM POULTRY PRODUCTION. 3d ed. 245pp. illus. Danville, Ill. The Interstate, c1942.

This new edition of a textbook written by two faculty members of the University of Illinois has much useful and up-to-date information on poultry husbandry.

Hurd, Louis M. PRACTICAL POULTRY-FARMING. 454pp. N.Y. Macmillan co. 1943.

## RANGE MANAGEMENT

Stoddart, Laurence A. & Smith, A.D. RANGE MANAGEMENT. 547pp. 1st ed. N.Y. McGraw-Hill Book Co., Inc. 1943.

A readable and up-to-the-minute book on the general management practices and technique of the western range. Particular emphasis is placed on range conservation.

## SOILS

Bear, Firman E. SOILS AND FERTILIZERS. 374pp. 3d ed. N.Y. John Wiley & Sons, Inc. 1942.

This is a complete revision of the author's earlier book entitled "Soil

Management." It presents a modern statement of the problems of soil management and methods for their solution.  
 Worthen, Edmund L. FARM SOILS, THEIR MANAGEMENT AND FERTILIZATION. 515pp. 3d ed. N.Y. John Wiley & Sons, Inc. 1941.

Written for farmers and students interested in the problems of practical soil management, the "emphasis is placed on what to do and when and how to do it. ... Specific instructions are given for draining and tilling soils, for controlling erosion, and, somewhat more briefly, for irrigating land and practicing dry-land farming."

#### STATISTICAL METHODS

Croxtan, Frederick E. and Cowden, Dudley J. APPLIED GENERAL STATISTICS. 944pp. N.Y. Prentice-Hall, Inc. 1942.

"This book is intended for the use of readers who are interested in the understanding of statistical methods, and in their application in various fields, especially the social sciences." -- Preface.

Pearson, Frank A. and Bennett, Kenneth R. STATISTICAL METHODS; applied to agricultural economics. 443pp. N.Y. John Wiley & Sons, Inc. 1942. L.R.251 P31.

Written primarily for those interested in application of statistical methods to agricultural economics, this textbook draws its illustrations largely from the fields of farm management, marketing, and prices. The book is designed as a general reference work for statistical workers.

FARM SAFETY REVIEW

Have you seen the SPECIAL REPORT ON DISEASES OF CATTLE? The first time this report circulated there were long waiting lists and the loan period was limited. We now have several copies which are available on regular loans of one month. Another book on this subject is KEEPING LIVESTOCK HEALTHY, the 1942 Agriculture Yearbook. This is a virtual reference library in one book on veterinary medicine and the health care of farm animals. If you haven't had an opportunity to see this you will want to borrow the Library copy.

HOW TO USE THE LIBRARY BOOK LOANS. 1. Books, pamphlets and other printed material are loaned to any Department of Agriculture employee for periods varying from one week to one month, depending upon the type of material and the demand for it. 2. Books may be renewed unless there are others waiting to use them. 3. The loan period begins the day the book reaches the borrower's office. 4. Requests for loans need not be limited to the titles listed in the NEWSLETTER, for if we do not have the book desired we will try to borrow it from another library. 5. Library material weighing four pounds or less may be returned to the Library under frank, and any single book, regardless of weight, may be mailed under frank. 6. We frequently have long waiting lists for the publications noted in the NEWSLETTER. Names are added in the order received.

NEW LOCATION OF LIBRARY Due to limited space and lack of personnel, it has been necessary for the University of Nebraska to terminate its cooperative agreement with the USDA Library. During the week of July 12 the books, periodicals and equipment of the Lincoln Branch were moved from the University Library to the Rudge & Guenzel Building. All of the Library services will be continued and the Library collection will be expanded as rapidly as funds permit. The collection of the Nebraska University Library, as well as those of the Agricultural College Library and the Nebraska Library Commission will continue to be available to us on inter-library loan for reference and research work.

The Library is now conveniently located on the third floor of the Rudge & Guenzel Building (Room 312-A) and we extend a cordial invitation to each and every one of you to visit us soon and often.

SELECTED LIST OF RECENT ACCESSIONS

AGRICULTURAL FINANCE

Murray, William G. Agricultural finance; principles and practice of farm credit. 328 p. Ames, Iowa, The Iowa state college press, 1941. 284.2 M96

This study of agricultural finance deals with both credit principles and lending organizations. The lender and the borrower are considered, and commercial and governmental agencies are discussed. Because of the growth of federally sponsored credit considerable space is given to public credit organization

AGRICULTURE

Chamber of commerce of the United States. Agricultural department. AGRICULTURE IN THE YEAR AHEAD. 25 p. Washington, April 27, 1943. Doc.

Contents.--Production by C. Chester DuMond. -- Processing and distribution by Clarence Francis. -- Markets abroad by Dr. J. B. Condliffe. -- Adjustment problems, by E. R. Eastman.

AGRICULTURE. HISTORY

Bidwell, P. W. and Falconer, J. I. HISTORY OF AGRICULTURE IN THE NORTHERN UNITED STATES, 1620-1860. 512 p. New York, Peter Smith, 1941. 30.9 B47H

An authentic history of agriculture up to the Civil War. Although concerned largely with agriculture on the Atlantic seaboard there is information on the western movement and one chapter on "Influence of the prairies on the progress of agriculture."

BEES

Teale, Edwin Way. THE GOLDEN THROG, a book about bees, illustrated with eighty-five photographs by the author. 208 p. New York, Dodd, Mead & company, 1940. 279.2 L62.

The author of GRASSROOT JUNGLES turns from the whole field of insects to one particular family - the bees. Combining scientific inquisitiveness and artistic imagery the author writes the story of his backyard bee-hive from the beginning of the quest for honey in the spring, and carrying it on through the summer as the honey is stored against the coming winter. An outstanding feature of the book is the beautiful photographs by the author.

#### FIVE MORE BOOKS JUST RECEIVED

Davis, Raymond E. and Kelly, Joe Wallace. SHORT COURSE IN SURVEYING. 330 p.  
illus. New York and London, McGraw-Hill book company, inc., 1942.

A condensation of more advanced textbooks. "Those subjects have been se-  
lected which will lead to a reasonable proficiency in the various phases of  
surveying in the shortest possible time."

Dies, Edward Jerome. SOYBEANS, GOLD FROM THE SOIL. Rev. ed. 122 p. New York,  
The Macmillan company, 1943. 60. 3 D563 1943.

Coming out of the Orient to write new agricultural history the soy bean is  
today a major cash crop and touches the lives of most of this nation's in-  
habitants. Here is a colorful account of the soybean, bringing together the  
historical record - from the breeding of varieties, planting and harvesting,  
down to conversion into edible and industrial products. Production and consump-  
tion charts and tables, a chronology, and a bibliography are included.

Engeln, O. D. von. GEOMORPHOLOGY, systematic and regional. 685 p. illus.  
New York, The Macmillan company, 1942.

Textbook on geomorphology (the study of "the forms of the earth") by the  
professor of geology at Cornell university. The many illustrations include  
photographs, diagrams and maps.

Gabrielson, Ira M. WILDLIFE REFUGES. 257 p. New York, The Macmillan company,  
1943. 412.9 G11W.

In an earlier book WILDLIFE CONSERVATION Dr. Gabrielson discussed the sub-  
ject of wildlife and its value as a national resource. In this book he describes  
the refuge system from the great waterfowl wintering grounds along the Gulf  
Coast to the wild and rugged islands of the Aleutian chain.

Hawkins, J. Harold. YOUR HOUSE; ITS UPKEEP AND REJUVENATION. 224 p. illus.  
New York, M. Barrows & company, [c1943] 323 H31.

In the preface to his book the author writes "So here in this book are sug-  
gestions about the upkeep and rejuvenation of your house. Read the book over.  
Look around your house and check the things that need doing. In short, don't  
let Your House down!"

#### BIBLIOGRAPHY OF AGRICULTURE

Beginning with the July 1943 issue, Sections A - F of the  
Bibliography of Agriculture are combined and are issued as one  
monthly publication. We will continue to circulate the  
Bibliography to all who were on the list to receive Sec-  
tions A - F and will welcome new names to add to that list.  
Here is a tool that no Department worker interested in keep-  
ing abreast with the literature in his field can afford to  
miss. For a description of the new Bibliography, see the  
attached press release.

## A NEW BIBLIOGRAPHY OF AGRICULTURE

- - -

In order to provide full and prompt coverage of the information contained in the scientific, technical and economic material received in the Library of the Department of Agriculture -- which is the world's greatest repository of information about agriculture, food, and related subjects -- the Library this month initiates a new service in its monthly Bibliography of Agriculture.

Intensified war programs of the Department of Agriculture and of the other war agencies, both civil and military, have greatly increased the need for up-to-the-minute information on such varied subjects as insecticides, plastics, substitute fibers and rubbers, substitutes for cork or Kapok, rationing, price control, and countless other agricultural subjects. Information contained in current publications is important in the preparation for battle, in the protection of the health and welfare of soldiers in foreign lands, and for winning the war on the home front.

The Bibliography will attempt to organize all the information contained in current agricultural literature, regardless of the form of the publication or the language in which it was originally produced. The size of this undertaking is indicated by the fact that the first issue contains over 4,000 books and articles, and the total number of articles listed each year will probably exceed 50,000. In the past, all the abstracting and indexing journals together covered only a small fraction of the 12,000 periodical publications received currently in the Library, and they frequently lagged from six months to several years behind the date of publication of the articles indexed. The Bibliography of Agriculture is intended to make the subject matter of all of these periodical publications, as well as of books and pamphlets, available within a month of the time they are received.

This new periodical replaces a number of mimeographed lists which were formerly issued to cover parts of the field. In addition, its scope is broad enough to include human nutrition, the animal industry, and all other agricultural subjects not previously covered by current lists issued by the Library.

Since the primary purpose is to make readily available to everyone who needs it, the information contained in the literature, the problem of organization of the material for ready use is especially important. Thus each monthly issue contains a detailed table of contents and full author and subject indexes.

The range of the publications may be indicated by listing a few of the more general headings found in the table of contents, including plant sciences, plant physiology, silviculture, field crops, horticultural crops, miscellaneous economic plants, soils and fertilizers, forestry, lumbering, wood properties, wood utilization, animal breeds and breeding, veterinary medicine, cattle, horses and mules, poultry, rabbits, sheep and goats, swine, entomology, farm machinery, farm structures, processing of agricultural products, agricultural prices, price control and rationing, agricultural economics and rural sociology, agricultural labor, farm management and land economics, food and human nutrition, and many others.

Free distribution is limited to Federal, State, and other public agencies. However, subscriptions may be placed with the Superintendent of Documents, Washington, D. C., for \$3.75 a year. Single numbers sell for thirty-five cents. Depository libraries may obtain their copies from the Superintendent of Documents.

PERIODICALS

The periodicals listed below are now being received regularly by the Lincoln Branch. If you wish to see any of these, let us know and we shall place your name on the routing list.

**THE CHEMURGIC DIGEST.** Semi-monthly. Published by The National Farm Chemurgic Council at Columbus, Ohio. The article "Plastics from agricultural waste" which appears in the August 30, 1943 issue indicates the type of material to be found here.

**AGRICULTURAL AND INDUSTRIAL PROGRESS IN CANADA.** Monthly. This review, published by the Department of Immigration and Colonization of the Canadian Pacific Railway at Montreal, frequently carries articles on agriculture in the Canadian Great Plains region. There is a section on Science in Agriculture which notes research work being carried on by the Dominion Department of Agriculture.

**THE CONSERVATION VOLUNTEER.** Monthly. An illustrated bulletin published by the Minnesota Department of Conservation containing articles on the conservation of wildlife and natural resources.

**ECONOMIC CONDITIONS,** Governmental finance; United States securities. Monthly. Published by The National City Bank of New York.

**FARM RESEARCH.** Quarterly. Articles on current agricultural research at the New York Agricultural Experiment Stations at Geneva and Ithaca. "Breeding poultry to live thru disease resistance"; "Controlling corn earworm", "Winter or spring grains for feed production in 1944?" are recent titles appearing in this review.

**WOOD PRESERVING NEWS.** Monthly. Published by the American Wood-Preservers' Association of Chicago, Illinois, this periodical frequently contains articles on the use of treated wood in the construction of agricultural structures. The following titles were taken from recent issues. "Creosoted wood cattle passes"; "Experiment station finds creosoted baffles aid in erosion control."; "Wartime construction of creosoted culverts, drain boxes and sewers"; "Creosoted wood dam for water supply."

Because of its timeliness and its importance to the Department personnel we are again calling your attention to the book THE FARMER CITIZEN AT WAR by Howard R. Tolley. This is an account of agriculture in the United States and the part played by the farmer and by the United States Department of Agriculture in furthering the war effort, written by the Chief of the Bureau of Agricultural Economics. "This book", Russell Lord writes, "is packed not only with information; it is packed with a burning belief in the decency and common sense of the American people."

Through the generosity of Mr. E. A. Starch of the Bureau of Agricultural Economics, who recently presented two copies of this book to the Library, we now have three copies for circulation in this region.

### TRAVELING LIBRARY UNITS

As many of you USDA folks in the field cannot visit your Branch Library in Lincoln, we are going to try to bring at least a part of the Library to you.

The first of the TRAVELING LIBRARY UNITS is now in the field and others are in preparation. The material in these units has been selected for the FSA personnel and titles on irrigation, water facilities, cooperation, postwar planning, nutrition, group health and food and the war are included. Units will also be prepared for SCS, AAA, FIDA and other field offices in accordance with the demand for this service. Selections will vary according to the interests, activities and locations of the offices.

Each unit will consist of five books and twenty pamphlets and will be accompanied by a folder containing a list of contents, a brief reading list suggesting other books which are available on loan from the Lincoln Branch, and an itinerary.

The Travel Library may be kept for one month and is then to be forwarded to the USDA office indicated in the itinerary.

Let us know if you care to have a Travel Library visit your office. Let us know too what your subject interests are, for that information will help us in the selection of books and pamphlets to be included.

The Library also has a number of packets ready for circulation to the field offices. These consist of pamphlets and in some cases periodical articles and may be borrowed for a period of two weeks. Packets on the following subjects are available.

INFLATION  
PAN AMERICANISM  
USDA TRAINING MANUALS

A new packet on agriculture and postwar planning in Great Britain has been prepared for British Book Week, October 24-30 and is now ready for circulation.

### SELECTED LIST OF RECENT ACCESSIONS

#### AMERICA

Peals, Carleton. AMERICAN EARTH, the biography of a nation. 500 p. J. B. Lipincott Company, 1939. 281.12 E36.

An indignant protest against the way we have wasted the resources of our land and created a pauper peasantry. The first part of the book is devoted to the past of our country; the second is a reporter's impression of the poverty and social maladjustment in many parts of America. The accuracy of some of the author's facts has been questioned by historians.

#### COOPERATIVE GROUP FARMING

Eaton, Joseph W. EXPLORING TOMORROW'S AGRICULTURE. Co-operative group farming - a practical program of rural rehabilitation... New York, Harper & Brothers publishers, c1943. 280.2 Ea8.

A survey of the FSA cooperative group farming projects a few of which were in Nebraska and the Dakotas. A final chapter describes non-governmental cooperative farm groups.

#### DUST BOWL

Svoboda, Lawrence. AN EMPIRE OF DUST. 203 p. illus. Caldwell, Idaho, The Caxton Printers, Ltd., 1940. 281.029 Sv5.

From his own experience the author has written the "inside story of the plight of the average farmer in the Dust Bowl," a region, which, he says, "appears doomed to become, in drear reality, the 'Great American Desert'..."

#### FARM BLOC

McCune, Wesley. THE FARM BLOC. 278 p. 1943. Doubleday, Doran & Co. 281.12 M13.

A critical examination of the many interests involved in the United States agricultural bloc, sketches of the bloc leaders in Congress; accounts of the growth and influence of farm organizations, commodity associations and cooperatives that are the most powerful pressure groups. Discussion of the meaning of parity, of new deal agricultural measures, and the role of the U. S. Department of Agriculture in the farm bloc. A lively style.

#### FARMING

Moreland, Wallace S., ed. A PRACTICAL GUIDE TO SUCCESSFUL FARMING. 1001 p. New York, Halcyon House, c1943. 30 M81.

Written by thirty-six leading agricultural experts this book strives to put within the covers of a single volume the basic principles of successful farm operation. Partial contents.--Farm finances and farm credit. Allen G. Waller.--The soil--its conservation and management. Firman E. Bear and Lindley G. Cook.--Animal nutrition. Herbert J. Metzger.--Livestock disease control... George E. Taylor and F. R. Peaudotte.--Farm structures and equipment. W. C. Krueger.--Grain crops. Howard B. Sprague.--Grassland farming. Carl B. Bender.

#### FOREIGN TRADE

Taylor, Henry C. and Taylor, Anne Dewees. WORLD TRADE IN AGRICULTURAL PRODUCTS. New York, The Macmillan company, 1943. 286 T21.

A concise survey of the facts of world trade in agriculture, indicating the way in which this trade has developed and been shaped by national and

international policies. From 1933-35 Dr. Taylor served as the United States Member of the Permanent Committee of the International Institute of Agriculture, in Rome. During 1936 he was the President of the General Assembly of the Institute. Much of the background material for this book was gathered during those years.

#### GREAT PLAINS. HISTORY

Henry, Ralph Chester. HIGH BORDER COUNTRY, by Eric Thane. 335 p. New York, Duell, Sloan & Pearce, c1942. 138 H392.

This is an account of the high border country - the northern tongue of Idaho, Montana, Wyoming, and Dakota, down into the region of its eastern boundary. "Sixth in the series of American Folkways books edited by Erskine Caldwell, HIGH BORDER COUNTRY is a rousing and lusty American story, full of extraordinary characters and terrific tales."

#### INSECTS

Tscale, Edwin Way. NEAR HORIZONS; THE STORY OF AN INSECT GARDEN. Illustrated with more than 160 photographs by the author. 319 p. New York, Dodd, Mead & company, 1943.

"This is the story of an explorer who stayed at home...of journeys into a Lilliputian world that anyone can visit...of one man's adventure among mysterious neighbors within the near horizon of the insect world..."

"The book is illustrated with remarkable close-ups and action photographs, some obtained by the use of a new photographic technique, and all revealing intimate glimpses of insect activity..."

#### LAND USE

Brinser, Ayers and Shephard, Ward. OUR USE OF THE LAND. 303 p. illus. New York and London, Harper & Brothers publishers, 1939. 282 B762

Attempts to give the reader an understanding of our land-use problems by showing how they have arisen, their extent, and the kind of controls which have been set up to solve them. A textbook suited to the early years of secondary school.

Van Dersal, William R. THE AMERICAN LAND; its history and uses. 215 p. illus. Oxford univ. press, 1943. 282.L2 V18

Beginning with brief chapters on the early history of our land and its present uses the author proceeds immediately to a discussion of the products of that land. Field crops, orchards and garden plants are considered as are the range and the forest plants and products. A discussion of erosion and new methods of land use and management brings the book to a close. The author is a member of the Soil Conservation Service.

#### NUTRITION

Sherman, Henry C. THE SCIENCE OF NUTRITION. N. Y., Columbia university press, 1943.

Tells the story of the science of nutrition, summarizes the present nutritional knowledge and discusses means of making this knowledge more effective.

#### PHOTOGRAPHY

Smith, H. T. U. AERIAL PHOTOGRAPHS AND THEIR APPLICATIONS. 372 p. illus. New York, D. Appleton-Century co. c1943. 325.2 Sm5.

"The purpose of this book is to present, as simply as possible, the elements of aerial photographic mapping and photo interpretation, and to outline their various fields of application... The standpoint assumed is that of the user of aerial photographs..."

#### PLASTICS

Lougce, E. F. PLASTICS FROM FARM AND FOREST. 159 p. illus. New York, Plastics institute, c1943. 309 L92

Reviews some of the important uses of farm and forest products in the plastics industry to show how farm chemistry and research have been put to work during the present generation.

## PUBLIC AFFAIRS PAMPHLET

Public Affairs Committee, Inc. Pamphlets. 3 Nos. N.Y., 1943.

No. 81. REBUILDING EUROPE - AFTER VICTORY, by Hiram Motherwell.

Miller, C. E. and Turk, L. H. FUNDAMENTALS OF SOIL SCIENCE. 462 p. illus. New York, John Wiley & sons, inc., c1943. 56 M613

Basic principles of soil science are discussed in simple terms and the relations of soil science to other agricultural fields and to society in general are emphasized.

## SOILS. TILLAGE

Faulkner, Edward H. PLOWMAN'S FOLLY. Norman, Oklahoma, University of Oklahoma press, 1943.

"The author contends that the use of the moldboard plow...is the least satisfactory preparation of land for the production of crops. He goes into soil properties and the harmful effects of deep plowing and explains his own experiments with disk harrowing and surface planting. His thesis is controversial but has been developed during his years as a county agent and soil investigator in Kentucky and Ohio."

SIGNED REVIEW

Raper, Arthur Franklin. TENANTS OF THE ALMIGHTY; FSA photographs by Jack Delano. 403 p. Macmillan. 1943. 281.019 R18T.

This is a story of one spot on the globe, and of the people who call that spot home. It has no hero and no villain; yet it tells of heroic deeds of people and villainous forces working against them.

Arthur F. Raper, the author, adds up all the little problems of little people in Greene county, Georgia; in such a way that the reader arrives at this answer: All these little problems, of this and countless other communities, add up to the big problems of a big country. The story is of the South; the reading entertainment and the lessons are for the whole of America.

Raper first tells the story in effective pictures for those who want their story short--as he puts it. Photographers focused on the little things--on wrinkled hands, worried faces, gullied lands, run-down houses; on meetings, churches, schools, and on hopeful signs of recovery; improved practices, restored houses and happy folks. Like good headlines, the pictures coax the reader on into the story.

The story begins with the land. Then come the Indians and the first demands upon the land. Swiftly follow the white men and their struggles. The slaves' connection with the land is woven into a fabric still worn by that part of America. Little local politics broaden into the impact of national politics.

Development of cotton plantations leads to control by the wealthy over the poor. The thread of learning leads to the school systems. The railroads come, and the church and religious worship. Rudiments of rural cooperation appear as the slave families get together with their work. Raper tells of the erosion of fields and people. The effect of the Civil War is pictured.

The story carries through relative prosperity and into depressions, to the point where the Government, with a new kind of deal in mind, steps in with humanitarian plans to help the people in their own efforts to rebuild their security from the ground up. Raper tells--or, rather, lets the Greene county folks tell--how the dormant capabilities of the people responded. Work with the Farm Security Administration brought new self-respect and self-reliance. The families learned how to make the best out of what they had. The AAA and the Soil Conservation Service spurred them on in land reclamation and taught them new uses of natural resources. Better living and health, better farming and better home making, came as natural results.

Then World War II strikes the community. The people feel they are better prepared to serve their country in the armed forces and on the home front than they could have been without the renewed strength--new strength traceable to their Government which now calls upon them for help. - Floyd H. Lynn, Information Specialist, Farm Security Administration.
